Dear Assoc.Prof. Akkar and Prof.Dr. Glavatovic,

Following the Project Workshop held in Croatia on 12 May, I agree to a six-month extension of the project from 1 April 2011 until 1 October 2011 under the following conditions:.

1. That no NATO SfP funds in addition to the overall amount estimated for the project are requested.
2. That the draft final report is received at NATO by 1 October 2011.

Please note that as the major activities of the project are expected to have been completed by the due date of the draft final report, further granting may not be expected after 1 October 2011 and this should be taken into consideration when submitting PRFs.

Yours sincerely,

Dr. Chris De Wispelaere
Director of Projects
